About PolitiNudge

COVID-19 is a barrier to people getting out and protesting. People want to support Black Lives Matter (BLM) in ways other than protesting but are unsure how. The PolitiNudge Chrome extension is here to help.

PolitiNudge will inform those who are interested about the many ways they can help out the BLM movement other than protesting by replacing certain images on their news site of choice with graphics about donating money, time, resources, etc.

PolitiNudge's goal is to remind people of the myriad of ways they can help without the risk of contracting COVID-19.
